

To our favorite teacher & friend
Robert "Robbie" S. Millet
December 2004

HAPPY RETIREMENT

In June of 1974
An offer came to you
To join the faculty and staff
At the Grover Cleveland School

You knew there would be challenges
From the very start
To work in an environment
Where everyone was smart!

No longer were there freshmen,
Juniors, seniors, sophomores
They replaced grade numbers 9-12
With numerals I through IV

Your classroom space was tiny
In a shade of faded peach
Where there was hardly any room
That anyone could teach

But lots of changes have occurred
To our cherished school
With the Dean of Students foresight
And funds solicited by you!

We now have a Science Building
With the help of Robbie's vision
Who kept insisting we need more
Than exterior revisions

The new dorm is up, and planning
for a library on its way
Preparing for the future
While we educate today

You've seen our graduates become,
Authors, artists and musicians
While others got their PhD's
And became mathematicians

The time has come to try new things
You've chosen to retire (*lucky you!*)
After thirty years, we now can say
We're glad that you were hired!

Thanks for all your kindness, Robbie
We hope you'll keep in touch
The students, staff and faculty
Will miss you very much

Best of luck!

Your comrades-in-arms at G.C.
